

Pantego® LQ Tech Sheet

Pantego® LQ is offered in a gallon container for use in specialty crops.

Crop	Application Rate
Berries, Potatoes/Sugarbeets, Vegetables, Tree Fruits, Tree Nuts, Vines	5 - 15 fl oz/acre
Other Specialty Crops	5 - 15 fl oz/acre

Rates and frequency may vary by crop, soil type and environmental conditions

Storage & Handling

Storage: Keep refrigerated (36-50°F). Use within two weeks after removal from refrigeration. Store in original container only. Keep out of direct sunlight. Use full contents of container after opening.

Disposal: Dispose of all waste in accordance with local, state, and federal regulations.

Spills: Wash away excess fluids and dispose of collected solution according to local, state, and federal laws.

Keep Out of Reach of Children: No hazard symbol. This substance does not meet criteria for classification as a dangerous substance. Wear eye goggles and gloves.

FAQs

Q: When does the product expire and how long can I keep it on the shelf?

A: See packaging for expiration date.

Q: What is the best application method?

A: Pantego is a soluble liquid product that goes directly into the tank to be applied via irrigation.

Q: Is it safe for me to put Pantego into a tank mix with other products?

A: It depends on the other chemicals in the tank. Do not tank mix with high sulfur-containing fertilizers or other sulfonated products. Some starter fertilizers have dilution or time requirements. Full product compatibility information can be found on Locus AG's website or via the QR Code below.

Q: How do I ensure even distribution across my field?

A: Fill your mix tank halfway, add in the appropriate amount of Pantego, then add the remaining water. Mix well. Keep agitation on throughout the application, if possible.
